## LUXURY

### *A Definition of Quality*

What does luxury mean at Burly Knits? It quite simply means, using the best sourced fibres and trimmings and spending time to hand make beautiful bespoke and functional items for personal enjoyment. Luxury means our hands have created these items and every stitch is considered and inspired. Luxury is a return to quality and dedication of craft, made locally in a real artisan studio.

## THE BURLY STORY

Burly Knits is Handmade Luxury personified; a return to time honoured skills and mastery of trade, where every detail is considered and complimented by hand techniques for lasting heirloom quality textiles and accessories.

True luxury at Burly Knits means beauty, quality, integrity and comfort, where only the finest natural fibres and materials are artfully combined to offer timeless elegant and approachable results. The true definition of luxury is bespoke handwork, master level artisanal skill and supreme quality of materials and finishing techniques, where the integrity of the art is never compromised, and the beauty and function reign supreme, in every creation.

It all began when James Crispin Janz the creative man behind Burly Knits, began to craft the pieces he could not find anywhere else. Soon this passion for knitting, crochet, knotting, weaving and hand stitching became yet another creative pursuit of his, and he set out to teach himself each technique and to express excellence and mastery at every level. Coming from the world of design, architecture and interior architecture, James brings his multi-disciplinary editors eye and over thirty years of industry experience to all aspects of his textile designs and the creation of every piece from the atelier.

Every item is envisioned, designed and made by hand, stitch by stitch, piece by piece by James himself in his Canadian design studio, where he is free to explore the infinite flow of creative ideas and the endless possibilities of inspiration that he draws from his diverse interests and passions.

Everyone deserves to have beauty and quality in their lives, especially when it is handmade.

## WINTER SOLSTICE BLANKET

## WINTER SOLSTICE BLANKET

*Natural White Finn Raccoon Fur knit with Merino & Alpaca wool*

One of the most sacred times of the year is the start of Winter on December 21st, where the day is equally as long as the night. This seasonal passageway is the start of the resting period where nature has finally gone to bed for the next several months. Candles and lanterns are lit, fires are stoked, and doors are shut. Footprints are made in the snow, and the pace of life is meant to slow and rest while regeneration and reflection are key. Soft Heather grey Peruvian Alpaca tweed with camel and cream slubs is blended with soft white extra-fine Italian Merino threads. The dazzling natural white soft and glossy fur of the Finnish Raccoon is knit in, and is accented by woven textured panels and finished with a hand knotted fringe. This blanket is perfect to wrap yourself in by the fire, and ready yourself for a long winters nap.

## THE FINEST NATURAL FIBRES

Ultra-fine Merino wool from century established Italian mills is chosen for its enduring softness and durability. We custom blend our threads in our Canadian atelier into our timeless naturally inspired colourways, that capture the infinite inspiration from the Canadian landscape.

We have looked to the great Irish traditions of spinning fine Merino wool with Cashmere and Silk by the remaining mills in Donegal Ireland to blend into our creations. Base colours have flecks or slubs of other tones blended in, forming the basis of naturally inspired yarns reflecting the tones found in nature.

Only the finest ethically trapped and farm ranchered furs are sourced from a Canadian family business certified with multiple organizations. We honour the finest fibres and are grateful for the life force and energy of each animal infused into every creation. We lift each creation to its highest form inspired by beauty without waste. This secures the essence and honours it.

## EXPERIENCE

All blankets and products come complete with a signature, brass engraved label with our secret message, wrapped with a bow, care instructions, and tag of authenticity, dated and signed by Burly.

## CARE & WASHING

Best to be hand washed using the recommended gentle conditioning soap 'eucalan'. When hand washing gently squeeze out excess water and lay flat on a towel forming it to the stated dimensions. When dry gently steam iron on wool setting to perfect the shape and stitch relief, starting on the reverse side and finishing on the front side. All blankets and products are pre-washed and steam blocked to perfection. Our hand engraved brass label is uncoated and meant to develop a rich and natural patina over time. Ensure that it is not submerged in water for extended periods of time and dried off immediately to prevent any potential discolouration of surrounding fibres.
